

PD501 Liquip Monitor for Overfill and Grounding

The PD501 monitor provides overfill protection combined with ground assurance.

The PD501 is a basic unit which offers the lowest capital cost with simple and cheap installation wiring. It is compatible with all common probes built to EN13922.

The PD501 is a multi-purpose monitor for use in ATEX and UKEX applications only.

- Explosion proof housing.
- Incorporates a single channel for 2-wire probes for railcar filling or other 2 wire applications.
- Monitors up to 15 x 5-wire probes for overfill protection.
- Ground assurance.
- ATEX and UKEX approvals.
- · Cost effective overfill protection & ground assurance.
